Showing 1 - 5 of 36 resultsAffli from Batangas University Company size: 11-50 employees Industry: Education Management Time used: Less than 12 months Review Source: Captterra My system of teaching lessons and student evaluation changed when our institution adapted NEO LMS. I used to always worry about suspending classes and its impact on the flow of the lesson that needs to be delivered, but having a NEO with me has eliminated the fear of not meeting my class face to face. NEO brings me closer to my students, whether we go synchronously or asynchronously. ProsNEO LMS is very easy to navigate. Lessons can be easily done even without user manuals or manuals. I really like customer support because of its effective and quick response. In terms of ratings, I find it easy using its Rubric feature. I used to have a lot of papers to bring when I go, but with NEO LMS, I just need to pull out my tablet to check my students' submissions. Finally, my students are more involved and they enjoy more because of the gamification feature that other LMS doesn't have. Cons can not come up with any disadvantages about NEO LMS. This is the perfect LMS for me. I have tried and tried other LMS that are difficult to use. But with NEO everything is simple. If there is one thing that needs improvement, it will be a mobile app specifically for Android devices. Company size: 51-200 employees Industry: Education Management Time used: Less than 12 months Review Source: Captterra Very good, once you remove the wrong links or avoid using not very well created features, it does the perfect job, about features as it looks, it is a very visual, mobile application, easy to use courses. Minus missing a good visual mobile application, some files can not be downloaded or downloaded, in some places on the platform there is nowhere to go, errors on some pages. Because it's an attractive for students aspect, function and price that gave us a bit of effort at the beginning, but worth it in the long run Prive, features, aspect, functionality cailee with Santa Barbara Junior School Company Size: 501-1000 Industry: Education Management Time Used: More than 2 years Review Source: Captterra ProsLove, how through Apple Classroom you can lock for this app them not to cheat on the NEO quiz. ConsSThuse very glyce! Sometimes it just turns off when a student works in it. Also, not all quiz features work in the app. The first time students log in to the app is very confusing for them, as they have to accurately enter the name of their area. Dr Oscar from Adler College, EBATEC, and soon the Department of Education Puerto Rico Time used: More than 2 years review Source: Captterra Performance! This product allows me to be more effective in what I do and confess. ProsNEO has it all! I have been a course creator and content integrator since 1996 and I can create academic solutions for the entire region, district and schools. NEO allows me to measure the effectiveness of students across the border and create a learning community among all stakeholders. NEO has very powerful tools that go beyond regular administration and the work of the institution, it is a holistic education tool! ConsAs educator and user technology in the classroom should have offline capabilities, so that in countries such as mine where electricity is not a permanent student can continue to work while there is no connection and recover once they are back within our clean coverage. Jose in Continuing Education and Professional Research Divition, University of Puerto Rico, Mayaguez Campus Company Size: 5,001-10,000 Employees Industry: Higher Education Time Used: More than 2 years Review Source: Captterra We use NEO LMS for short online continuous education courses. Almost never do students ask questions about navigation and fun. The organization is as pedagogical as it can be. Rubrics are an espucial tool for feedback with students' participation in forums, discussions, debates and other tasks. We make all current and hybrid classes complete without paper, and full online students enjoy freedom of learning on the go. ProsUser friendly. Cons We would like to have two dates for a task that has several parts. {cookieName:wBounce.isAggressive:false,isSiteWide:true,hesitation:20,openAnimation:rotateInDownRight,exitAnimation:rotateOutDownRight,timer:;sensitivity:20,cookieExpire:1.cookieDomain:autoFire:;isAnalyticsEnabled:true} Built-in AuthoringQuickly course to create and send courses seamlessly on board, train, to engage, And upskill is your whole enterprise, all in one place.... I like that they make improvements, add new features. Finally, my students are more involved and they enjoy more because of the gamification feature that other LMS don't have. So much help and ideas to create interactive and customizable learning paths. Navigation is sometimes inconvenient. For example, to get to student notes, there is only one route. Also, if there were more variants of the type of test questions, such as drag and drop. One of the drawbacks comes to mind, and this is the lack of features available for the small school package. This saves time because they don't need to look for lost handouts, homework notes, etc. Once you have learned the program, it has many useful features. Almost never do students ask questions about navigation and fun. The organization is as pedagogical as it can be. Rubrics are an espucial tool for feedback with students' participation in forums, discussions, debates and other tasks. We make all current and hybrid classes complete without paper, and full online students enjoy freedom of study Go. Pros: User friendly. Cons: we like to have double dates for a task that has several Recommendations to other buyers: We like to have double dates for a task that has several parts. Bill only for students who are active in active and current classes, not in archival ones. This makes it possible not to make a mandatory student archive, and if it is to take another class, we should not write on the support forum to unzip this student.
